Dear Mrs. Currie:

I will ask the Headmaster of the University Schools to send you a Calendar, though I think that it would be better for your boy to attend St. Andrew's College than the University Schools. The reason is that a boy of his age away from home should be under some guidance and oversight, and we have no residence in connection with the University Schools. They are day schools entirely. Though the teaching is excellent, the Headmaster cannot undertake to secure and oversee boarding places for outside boys, consequently, if I am not mistaken, our boys come altogether from their own homes in Toronto. Moreover, I am afraid that the school is now so full that it might be impossible to secure a place by the middle of September. In St. Andrew's on the other hand, Dr. Bruce Macdonald will have the care of the boy himself, and they are prepared for the University. I shall be glad if you will let me know when he comes to the city, as Mrs. Falconer and I should like to have him at the house. Our elder boy is the same age, though unfortunately he has not been at all well this winter. However, we leave for our holidays this week. We shall be glad to see Miss Carver again when she returns in the autumn, and hope to see more of her than we have. With kind regards, I am,

Yours sincerely,

President.

Mrs. Rufus Currie,

Folleigh, Lake, Colchester Co. N.S.
